8/10/71

As you know, if I make a request when Johnson is in, if it gets answered it takes months. When he is away, like answers by return mail. It has just occurred to me that I have neither seen nor asked for any statement(s) by General's Godfrey McHugh or Clifton. In the light of what I have just seen again and what I recall from the past, both would beof interest. Also, something else I'd forgotten, is that Dave Powers had a movie camera with him. Do not ask for the pictures but for any statements, interviews, etc. First let us see if there is anything and if so, what. His handling of the Library is no suggestion of death, which is not encouraging. I'll not ask about pictures for a while. That Powers had a camera is in Landis statement in CD3. Also CD1126. I've heard nothing in response to my requests, I misread the rejection of my appeal in forma pauperis, as what I've sent shows, and I'd done the next thing. It was entered where approval is indicated, with the word "denied" not legible to me. Until I was told what it says. Nothing else really new. Best, HW
